

**International Graduate School in
Genetics and Functional Genomics**

University of Cologne, Germany

10 Fellowships 3-year Ph.D. Programme starting Fall 2007

The Graduate School offers a high-level PhD programme with research opportunities in cellular, molecular, developmental, physiological, neuro- and evolutionary genetics and genomics. Plant, animal and microbial systems are equally well represented.

The three-year programme starts with a six-month rotation and course period, followed by a PhD project in one of the participating groups. Seminars and training courses complement the research work. Comprehensive support is provided throughout the programme. The programme language is English, and no tuitions apply.

10 competitive three-year fellowships (initially 1000 EUR, then 1300 EUR per month) are available. In addition, up to 10 students with self-provided funding may be selected as associates.

To obtain further information please visit our website at:
www.uni-koeln.de/bio-graduateschool.

Applications for fall 2007 are accepted between
December 20, 2006 and **March 20, 2007**.

European candidates may apply until **April 20, 2007**.

We highly encourage excellent female students to apply.
